

Midwest Scholastic Rowing Championship

May 10-11, 2014

1500 meters, Dillon Lake, Nashport, OH

This was the second year for the Midwest Scholastic to use its new Dillon Lake course. Culver qualified for the finals in all 9 of its entries, and earned championships in the Boys Novice 8+, along with a bronze medal in the Boys Varsity 4+.

In team placings CMA was 10th place among boys teams and CGA tied for 17th among teams with girls. As a team Culver was 9th in the combined boys and girls points. The race site had been inundated by high water the week prior

and it rained all day Saturday producing a lot of mud to squish through all weekend. We encountered a few health issues and injuries among the CGA squad causing us scratch from the Novice 4+, Junior 4+ and Varsity 2x while necessitating a substitution in the Varsity 4+ and 8+. Many of the Culver crews raced better in the semifinals and finals than their placement in the time trial and likely their own expectation, in particular the CGA Varsity 4+ and Varsity 8+.

(Only the events including Culver entries are listed below among the 38 events raced.)

Rowers are restricted to at most two events.

Novice events consist of rowers that began rowing since the previous May.

Junior events are restricted to rowers that are in grades 9-11.

- In the events that had between 8 and 14 entries, there were two heats, the top three crews from each heat advanced to the final.
- If there were between 15 or more entries there was a head race time trials with the top 12 advancing to two semifinals with top three advancing to the final.
