The Head Masters' Conference has agreed that "no School should elect to an Entrance Award a boy who has already been elected to an Award at another School, unless he first obtains leave from that School to compete, and if any such election be made in ignorance of the facts it should be cancelled as soon as the facts are known". Thus no boy elected to an Entrance Award at Harrow may afterwards compete for an Award at another School without forfeiting his Award at Harrow unless he has first obtained leave from the Head Master of Harrow.
