

GCSE: ASK Yourself!

Subject: Geography

Unit: The Challenge of Natural Hazards

	Launching 1-2	Developing 3-4	Progressing 5-6	Mastering 7-9
S kills				
	<p>I am beginning to annotate maps and photographs. Using numeracy skills, I can spot patterns. I can label diagrams. I am beginning to spell, punctuate and use grammar with reasonable accuracy.</p>	<p>I can annotate maps and photographs. I am beginning to describe landscapes shown in photographs. Using numeracy skills, I can describe patterns. I can label diagrams. I spell, punctuate and use grammar with reasonable accuracy.</p>	<p>I can interpret OS maps, e.g. contours, gradients, etc. I can annotate maps and photographs. I can describe landscapes shown in photographs. Using numeracy skills, I can describe and begin to explain patterns. I can label diagrams. I spell, punctuate and use grammar with considerable accuracy.</p>	<p>I can perform everything below independently and thoroughly: I can interpret OS maps, e.g. contours, gradients, etc. I can annotate maps and photographs. I can describe landscapes shown in photographs. Using numeracy skills, I can explain patterns. I can label diagrams. I spell, punctuate and use grammar with consistent accuracy.</p>
K nowledge				
	<p>I need to understand that there are processes beneath the Earth's surface which cause earthquakes and volcanoes. I need to understand the characteristics of some landforms resulting from these processes.</p>	<p>I understand that there are processes beneath the Earth's surface which cause earthquakes and volcanoes. I understand the characteristics of some landforms resulting from these processes.</p>	<p>I understand and can explain the processes beneath the Earth's surface which cause earthquakes and volcanoes. I can describe the characteristics of some landforms resulting from these processes.</p>	<p>I understand and can explain the processes beneath the Earth's surface which cause earthquakes and volcanoes. I can describe and explain the characteristics of landforms resulting from these processes.</p>

	<p>I need to understand how hurricanes can form.</p> <p>I can state what the impacts of different hazards are.</p> <p>I can say what climate change is and some of the ways humans are responding to it.</p>	<p>I understand how hurricanes can form.</p> <p>I can state what the impacts of different hazards are.</p> <p>I can say what climate change is and the ways humans are responding to it.</p>	<p>I can describe how hurricanes can form.</p> <p>I can describe what the impacts of hazards are.</p> <p>I can describe what climate change is and explain the ways humans are responding to it.</p>	<p>I can describe how hurricanes can form.</p> <p>I can explain in detail what the impacts of hazards are.</p> <p>I can describe what climate change is and give detailed explanations of the ways humans are responding to it.</p>
