

Year 7: ASK Yourself!

Subject: Design and Technology

Unit: 'Little Things' - Storage Project

	Launching 1-2	Developing 3-4	Progressing 5-6	Mastering 7-9
S kills				
Craftsmanship	My products are complete and function properly for their intended use and purpose.	My products are finished well with only minor defects or rough/unfinished parts.	My products are good quality, finished well throughout and show no defects.	My practical work is finished to the highest quality and could easily be sold in a retail store.
Difficulty	I normally play safe with my work and look for easy solutions to the tasks set.	I like to occasionally push myself and try a harder option for my solution.	I often push myself to the limits of my ability, taking risks and avoiding the easy solution.	I always push myself to the limits of my ability and never take the easy solution.
Homework	My homework varies from week to week and I score a range of marks for it.	My homework is of consistently good quality but I don't always score 10/10.	My homework is always of excellent quality and I always get 10/10.	My homework is always perfectly done and I go above what is asked of you.
K nowledge				
Materials	I am learning the materials used in DT but do still need reminding.	I know most of the materials I have used.	I know and use all specific material names in my written work.	I know, can name and know the properties of all the materials I have used in DT.
Processes	I am learning the processes used in DT but do still need reminding.	I know most of the processes used and I mention some of these in written work.	I know and use all specific processes names in my written work.	I know, can name and understand all the processes I have used in DT.
Health and Safety	I am learning the health and safety rules but sometimes need to be reminded.	I understand and follow good health and safety practice while in the DT department.	I always use machines in a safe way without needing assistance or reminding.	I am able to set up and use a variety of machines in a way which is safe for myself and others.
