

Year 7: ASK Yourself!

Subject: Music

Unit: Dig it! - Singing

	Launching 1-2	Developing 3-4	Progressing 5-6	Mastering 7-9
 S skills				
Ensemble singing	I need to be able to sing all the songs to Dig It! mostly in tune, some songs by heart and mostly with correct pitch.	I can partially sing the songs with clear words and can follow the conductor making sure I start and end my words with everyone.	I can confidently perform the songs and include some changes in dynamic level to express the words. I can sing a harmony part reliably.	I can expertly sing and lead a harmony part. I can sing a solo if necessary.
 K knowledge				
Voice production	I need to know how to breathe properly and stand correctly to make a good singing sound.	I know some of the techniques required to support the sound and sustain notes in the middle range of my voice. Also I know which consonant sounds need careful placing at the ends of words to improve the sound of the whole group.	I confidently know how to pitch notes and use a more extended range of my voice. Also where to breathe in the correct places so the music makes sense.	I understand and can apply melody, rhythm, timbre, tempo and dynamics to lyrics to communicate them more successfully.
