

Year 9: ASK Yourself!

Subject: Visual Communication

Unit: Basic Skills Project

	Launching 1-2	Developing 3-4	Progressing 5-6	Mastering 7-9
				
1 Point Perspective	I need to practice 1 point perspective drawing, I struggled with this technique.	My 1 point perspective drawing is not completely accurate or it may be a bit untidy.	I can draw fairly accurately in 1 point perspective. I still need to practice this technique to master it.	I can draw accurately in 1 point perspective. My drawings are precise and I have crisp, neat lines.
2 Point Perspective	I found this difficult and my drawing isn't finished.	I have made a good attempt, my page could be neater and lines more accurate. I need to practice.	I can draw fairly accurately in 2 point perspective and my page is neat. I may have a couple of mistakes.	I can successfully draw in 2 point perspective. My drawings are accurate and well presented.
Isometric	I found it difficult to use the drawing boards and didn't finish my isometric page.	With support I was able to draw in isometric. I may have needed reminding how to use a set square.	I produced a good isometric page independently.	I can successfully use drawing boards and set squares to draw in isometric. My drawings are neat and accurate.
3D Computer Drawing (CAD)	I need to be able to create CAD models.	With help I can create CAD models to a satisfactory standard.	I can create CAD models with very little help.	I can successfully create accurate CAD models independently.
Enlargement	I need to be able to enlarge drawings.	With help I can enlarge drawings.	I can enlarge drawings. My enlargement drawings are well presented.	I am very accurate at enlarging drawings. My page is also very well presented.
Shading & Textures	I need to improve my shading skills.	With support I am able to shade neatly.	I can shade neatly, showing a good tonal range. I can also shade to show texture.	I successfully use a variety of shading techniques and my textures look realistic.

Freehand Drawing	I struggle with freehand drawing and need to practice drawing in a sketchbook.	I can produce some good drawings, but they are not always accurate. I need to practice in a sketchbook.	I am good at freehand drawing. I need practice to get even better.	I can produce high quality freehand drawings. If I practice I will be able to draw faster.
 knowledge				
Drawing Techniques	I need to learn the names of the different drawing techniques.	I can remember most of the names of the drawing techniques.	I can identify the different drawing techniques and describe some of them.	I can describe the different drawing techniques and explain good and bad points about each.
Equipment	I need to learn the names of drawing equipment.	With help I am able to identify drawing equipment.	I can name the drawing equipment that I have used.	I can confidently name the drawing equipment that I have used and I can describe when and why it is used.
CAD/CAM	I need to learn what CAD means.	I know what CAD stands for and I can name a CAD program.	I am able to name a few CAD programs and I know what CAM machines we have in school.	I can confidently talk about the advantages and disadvantages of using CAD/CAM.
