

Year 9: ASK Yourself!

Subject: Visual Communication

Unit: Event Project

	Launching 1-2	Developing 3-4	Progressing 5-6	Mastering 7-9
 S skills				
Print	I struggled to make the stencils for printing.	I was able to make a stencil for relief printing and screen printing.	My prints were good. I may need to alter the stencil slightly to make my prints neater or I may need to apply more/less paint.	The prints that I made were very neat. I am able to screen print and relief print independently.
Photoshop	I may need to be more patient with the software and have a more positive attitude when learning new skills.	I used Photoshop with help from others.	I was able to skilfully use Photoshop in my work.	My Photoshop skills are excellent. I was able to learn how to use some of the tools on my own and I can help others use the software.
Poster	I started making the poster.	I made a good attempt at the poster.	My poster is neatly presented. It has a relevant image and some information about the event.	I produced a high quality event poster that looks professional and is informative. I used Photoshop to a good level in my design.
 K knowledge				
Print processes	I need to learn the printing processes.	I can name some of the printing processes.	I can name the printing processes and can explain some of the differences.	I can confidently name and explain the 4 different printing processes.
Scanner	I need to learn how to use the scanner.	My notes on the scanner were not in enough detail and I had to ask for help when using it.	I was able to use the scanner with the aid of my own notes.	I can confidently use the scanner and help others to do so.
