Children at St Catherine's Prep School, Bramley get up close with farm animals as part of week of humanities, food and farming

PICTURE: JASMINE ANDREWS

ST Catherine's Prep School, Bramley, became a hive of sustainable activity with a week of humanities food and farming.

Sheep, piglets, chickens and geese came to the playground to be admired and petted by every girl in the prep school and children from Gosden House.

The girls were exposed to hands-on activities to discover more about sustainable living, the food they eat and where it comes from, as well as the history of farming.

Julie Mullins, prep school history co-ordinator said: "This enables the girls to make links between the different subjects in the curriculum. These practical hands-on events often make the greatest impact and are what we remember in later life."
