Music – Summer Term

Year 4

Teachers: Mrs Lisa Colclough
Lessons: 1 x 40min

Introduction:

“Music is a powerful, unique form of communication that can change the way pupils feel, think and act. It brings together intellect and feeling and enables personal expression, reflection and emotional development. As an integral part of culture, past and present, it helps pupils understand themselves and relate to others, forging important links between the home, school and the wider world. The teaching of music develops pupils’ ability to listen and appreciate a wide variety of music and to make judgments about musical quality. It encourages active involvement in different forms of amateur music making, both individual and communal, developing a sense of group identity and togetherness. It also increases self-discipline and creativity, aesthetic sensitivity and fulfilment.”

The National Curriculum, QCA 1999

The music syllabus at The Mall School follows a scheme of work based around the National Curriculum with additional material inserted from time to time to extend particular aspects including cross-curricular links or specific musical topics (for example a project on African drumming in Year 7 which links with geography and the school’s involvement with the Landirani Trust in Malawi or a percussion project in Year 3 which focuses on learning to play tuned percussion, reading notation and ensemble skills). Most of the curriculum is taught in termly or half-termly projects culminating in some form of performance either to the rest of the class, to the school in an assembly or to parents in a concert.

Key Objectives:

- to foster and develop a love and understanding of music in many forms
- to provide a wide range of opportunities for pupils to discover and extend their own talents both as individuals and as members of a group through singing and instrumental work
- to provide regular opportunities for pupils to develop skills in listening, performing, composing and appraising both themselves and others

These key objectives will be covered alongside others in the units of work in each term. The topic areas to be covered for the Summer Term are as follows:

- Learning about music that tells a story (Programme Music) with a particular focus on ‘In the Hall of the Mountain King’ by Edvard Grieg
- Listening to and analysing this piece to identify certain elements of music (articulation, dynamics, tempo) and compositional techniques used in order to create dramatic story-telling effects
- Developing ensemble and performance skills by playing the piece as a class orchestra
- Continuing to develop understanding and confidence in reading notated music
- Responding creatively to a story stimulus to compose own short piece of programme music

Resources:

Boys may be asked to bring in their own instruments from home if appropriate.
