

KINDERGARTEN EDUCATIONAL VISITS AND OFF SITE ACTIVITIES (EVOSA) POLICY

INTRODUCTION

The Kindergarten acknowledges that children can derive immense educational benefit by taking part in off-site visits. The knowledge and experience gained beyond the Kindergarten can consolidate and extend the curriculum within it. This policy seeks to establish a framework from which children in our care can benefit in a safe, healthy and secure environment when they are participating in off-site visits.

The Kindergarten recognises that every child should have full access to each visit that is appropriate to their age regardless of their abilities, therefore, developing further 'the whole child'. It is also recognised that different types of off-site visit have different types of risks associated with them.

DEFINITION

An Off-site Visit is defined as children going 'beyond the school gates' to pursue an activity organised through the Kindergarten. Activities may take place during or after the Kindergarten day and will be educational, curricular or recreational based. All off-site visits must have an educational purpose and predetermined clear educational objectives. All participants in activities will be identified as group members associated with Thomas's Kindergartens.

ROLES AND RESPONSIBILITIES

The Head

The Head must ensure that any proposed Kindergarten visit complies with the Kindergarten's own policy. The Head must:

- appoint members of staff to be responsible at all times.
- ensure that staff members have experience in supervising the specific age of the children on the visit and are able to organise the group effectively.
- ensure that staff members are given sufficient time to plan and organise a visit properly.
- be satisfied that the visit has been planned effectively and that any risks identified by a risk assessment are considered and minimized.
- ensure that the Principal has approved the visit if appropriate.

- ensure that staff members are familiar with the venue and are suitably competent to instruct and supervise the activity.
- be clear about their own role if they are going on the visit. In these circumstances they must follow instructions of the team members who are in sole charge of the visit.
- ensure that all staff members accompanying the visit are appropriately selected and have the expertise, experience and qualifications relevant to the activities.
- ensure that where appropriate they have been issued with a copy of all risk assessments at least four weeks before the visit, information with the emergency contact details of the Kindergarten accompanying adults and all children (back packs provided).
- ensure that the ratio of adults to children is appropriate and suitable, in-line with EYFS statutory guidance. For activities identified as being higher risk, the supervision ratio will be increased as appropriate.
- ensure that safeguarding procedures are in place.
- ensure that suitable arrangements have been made for the medical and special needs of all children.
- ensure that first aid provision is available and adequate.
- ensure that the mode of transport is appropriate and that outward/inward journey times are clear.
- ensure that there is appropriate insurance cover.
- ensure that they have details of the venue including address, telephone number and contact name.
- ensure that a Kindergarten emergency contact has been nominated and that the members of staff have these details
- ensure that the staff members have the emergency contact information available.
- ensure that there are contingency plans in place for delays or alternative arrangements should the original visit have to be cancelled e.g. bad weather.

The head can delegate tasks to the Group Leader who undertakes much of the planning and organisation.

The Group Leader

The Group Leader is the teacher whom the head teacher has appointed to take overall responsibility for the supervision and conduct of the visit and for the health and safety of the group.

The Group Leader must:

- obtain the Head's prior agreement before any visits take place.
- prepare detailed and comprehensive risk assessments.
- follow all Thomas's Kindergarten regulations, guidelines and policies.
- have the ability to control and lead children of the relevant age group.
- be suitably competent to instruct children in the activity and be familiar with the venue.
- undertake and complete the planning preparation, including risk assessments and brief all group members and parents
- define accompanying supervisors' roles and ensure tasks are assigned.
- be aware of Safeguarding issues
- ensure that there is adequate provision for first aid provision.
- ensure that any drivers using their own transport have adequate insurance cover.

Teachers

Accompanying teachers must:

- do their best to ensure the health and safety of everyone in the group.
- act as any reasonable parent would in the circumstances.
- take reasonable steps to avoid exposing children to dangers that are foreseeable and beyond those that the children can reasonably be expected to cope with.
- consider stopping the visit or the activity and notify the group teacher if she thinks there is unacceptable risk to the health and safety of the children in their charge.

Volunteers

Non-teacher adults must be clear about their roles and their responsibilities.

- Volunteers must not be left in sole charge of children except where they are CRB cleared and it has been previously agreed as part of a risk assessment.
- They must follow the instructions of the Group Leader and other members of staff and assist with control and discipline.

Children

Children in particular have a part to play in avoiding risk to health and safety, they must:

- Not take unnecessary risks.
- Follow instructions of the group teacher, instructors and people within the venues.
- Be aware of anything that may cause themselves or others harm, speak to their teachers or if they are concerned.

Parents

Parents have the responsibility of ensuring that their child is following Thomas's Kindergarten Code of Behaviour, preparing their child for participation and accepting that a child who is a risk to the health and safety of either him/herself or others may be sent home early.

- Parents must inform the Kindergarten about any medical needs/allergies/special dietary needs etc of their child
- The Kindergarten must inform the parents about all aspects of the visit to enable them to make an informed choice as to whether or not they want their child to participate.

PROCEDURES

Preliminary Visits

The head shall ensure that for all visits a preliminary visit by a member of staff is made where the site is not known to accompanying staff. In all other cases, a preliminary visit is strongly recommended but, where this is not possible, a member of staff must obtain information of the places to be visited with particular regard to potential hazards.

Risk Assessments

A member of staff will prepare comprehensive Risk Assessments for all aspects of any off-site visit organised by the Kindergarten (i.e. transport to and from venue, leisure activities at a centre etc). Activities undertaken under the supervision of professional instructors when visiting organised

centres will be the responsibility of the centre although the Kindergarten staff will satisfy themselves that an appropriate risk assessment has been undertaken and is followed. Risk assessments must be reviewed upon return, this is especially important where the venue is to be re-used or if any accident/incident occurred.

Competence

All activities must be supervised by people of suitable competence. For some activities the Group Leader may be required to hold a national governing leader or instructor qualification. However, paper qualifications will need to be supplemented by the verification of other qualities i.e. maturity, general supervision skills, ability to supervise different types of group, relevant experience etc.

Competence as a leader will result from:

- experience/knowledge of the environment/venue to be visited;
- experience of the activities to be undertaken.
- leading similar educational visits.
- knowledge of the children involved.
- appropriate training.
- leadership skills and other personal qualities.

The head teacher needs to be satisfied that members of staff and other accompanying teachers are sufficiently competent to carry out their responsibilities are suitable for the role.

First Aid

The members of staff must ensure that adequate first aid arrangements are made bearing in mind the location and nature of the activity. A first aid box suitable for off-site activities will be taken on all off-site visits. At least one member of staff should be a competent first aider.

Recording Accidents

Accidents are by definition 'unplanned events' and therefore not every eventuality can be accounted for in the risk assessment. Should an accident occur it must be, if applicable, recorded in the accident book at the venue. Upon return to the Kindergarten the accident should also be recorded in the Kindergarten accident book. If the accident resulted in a major injury i.e. fracture, concussion, hospital treatment etc. it is advisable to obtain witness statements.

Mobile Phones

It is up to the members of staff to ensure that there are enough mobile phones within the group and delegate responsibility for maintenance of batteries.

Emergency Contact Information

The members of staff should ensure that they have with them at all times the 24 hour emergency contact number, so that if a serious incident occurs, or there are serious delays in travel times, any illness amongst the party this information can be relayed to the parents of every child on the visit

Transport

The Head shall ensure that a record is kept of all vehicles in which children in the care of Thomas's Kindergartens are transported. Lists of insurance details and of named drivers must also be kept. If any drivers will be using their own vehicles, they must have adequate insurance cover.

After the Visit

A report on the visit should be made to the Head by the Group Leader in an evaluation meeting. Any appropriate letters of thanks should be sent and all accounts checked, finalised and closed. Alterations/amendments to the risk assessments can be made at this stage if the trip is to be repeated at a later date.
