

MFL recommended holiday work for prospective Y12 students

1. Prepare a power point presentation about yourself. There should be a maximum of 6 slides with bullet points in the foreign language. You will use these as a cue to talk about:
 - yourself
 - your interests
 - what you did in the holidays
 - what you will be studying in the 6th form and why
 - what you would like to do after leaving school

On the first lesson back, be ready to give your presentation. It should last 3-5 minutes.

2. German students: complete the attached booklet

French, German and Spanish students: go on this site: <http://www.languagesonline.org.uk>
Choose the appropriate language and scroll down to the grammar section. There are explanations on how to form all the main tenses and lots of practice exercises. Please try to do as many as possible. 20-30 minutes twice a week is better than hours the day before your first lesson – a little and often!
